CONTEMPORARY ISSUES OF CONCRETE AND REINFORCED CONCRETE

Collected Research Papers
Annual

2018

COLLECTED
RESEARCH
PAPERS

Collected Research Papers “Contemporary Issues of Concrete and Reinforced Concrete” is an independent scientific periodical printed edition published since 2007.

Institute BelNIIS RUE is responsible for the publication of the Collected Papers.

The Collected Papers has been assigned the **ISSN code**:

ISSN 2076-6033 (Print);
ISSN 2664-567X (Online).

Each paper published in the Collected Papers is assigned a Digital Object Identifier (DOI).

The Collected Papers are indexed in the scientific databases RSCI, Google Scholar.

Publication frequency is once a year.

The publication of research papers is free of charge for authors.

GOAL AND OBJECTIVES

Goal

Scientific and practical contribution to theory and practice advancement in the field of concrete and reinforced concrete of the construction sector in the Republic of Belarus and other countries.

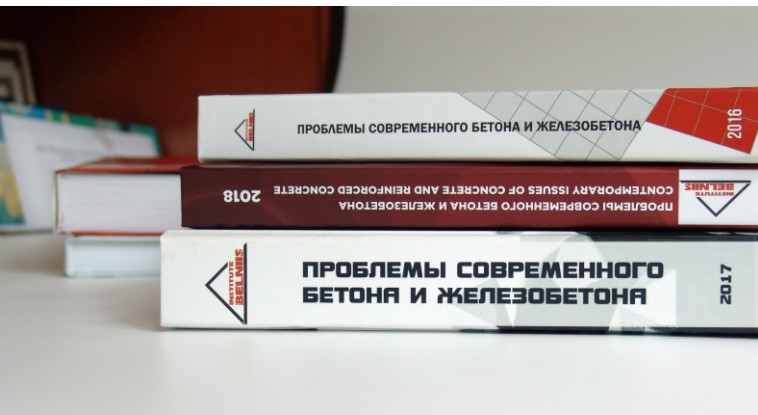

Objectives

International exchange of experience in the field of structures of buildings and constructions, construction materials, technology and methods of construction management, involvement of specialists' scientific potential (incl. young researchers) by publication of research papers that contain results of scientific-research and experimental-design works on different issues in the field of concrete and reinforced concrete (foundations and bases, concrete technology, load-carrying and enclosing structures; calculation, design and erection of structures of buildings and constructions; design of formwork systems and supporting harness; new finish, sound-proof and heat-insulating materials etc.)

THE PAPERS MAJOR SUBJECTS

- calculation and design of concrete and reinforced-concrete structures (products);
- calculation, design, technologies and materials for foundation of concrete and reinforced-concrete structures;
- production technologies for concrete and reinforced-concrete structures (products); erection technologies for concrete and reinforced-concrete structures (products);
- materials and products for concrete and reinforced-concrete production;
- digital technologies in construction.

The subject-matters may be specified on the basis of the applications put in.

EDITORIAL BOARD

Chair of Editorial Board, Editor in Chief

Aleh Liashkevich, PhD in Engineering Science, Institute BelNIIS (Belarus)

Deputy Editor in Chief

Valery Derkach, DSc in Engineering Science, Branch of Institute BelNIIS – Scientific and Technical Center (Belarus)

Members of Editorial Board:

Piotr Aliawdin, DSc in Engineering Science, Professor, University of Zielona Gora (Poland)

Eduard Batyanovski, DSc in Engineering Science, Professor, Belarusian National Technical University (Belarus)

Viacheslav Belov, DSc in Engineering Science, «Atomstroieksport» JSC / «ATOMPROEKT» JSC (Russia)

Siarhei Basakou, DSc in Engineering Science, Professor, Institute BelNIIS (Belarus)

Vladimir Dmitriev, DSc in Engineering Science, Professor, Moscow Aviation Institute (National Research University) (Russia)

Turatbek Duishenaliev, DSc in Physics and Mathematics, Professor, National Research University "Moscow Power Engineering Institute" (Russia)

Evgeni Klimenko, DSc in Engineering Science, Professor, Odessa State Academy of Civil Engineering and Architecture (Ukraine)

Aleksandrs Korjajkins, DSc in Engineering Science, Professor, Riga Technical University (Latvia)

Mikhail Kuzmenkov, DSc in Engineering Science, Professor, Belarusian State Technological University (Belarus)

Viacheslav Konkov, PhD in Engineering Science, Associate Professor, Institute BelNIIS (Belarus)

Dmitri Kotov, PhD in Engineering Science, Institute BelNIIS (Belarus)

Dmitri Lazovski, DSc in Engineering Science, Professor, Polotsk State University (Belarus)

Sergei Leonovich, DSc in Engineering Science, Professor, Belarusian National Technical University (Belarus)

Igor Ovchinnikov, DSc in Engineering Science, Professor, Saratov State Technical University n.a. Yu.Gagarin (Russia)

Andrei Pavlikov, DSc in Engineering Science, Professor, Poltava National Technical Yuri Kondratyuk University (Ukraine)

Valentin Paruta, PhD in Engineering Science, Associate Professor, Odessa State Academy of Civil Engineering and Architecture (Ukraine)

Viktor Tur, DSc in Engineering Science, Professor, Brest State Technical University (Belarus)

Alexandr Shcherbach, PhD in Engineering Science, Institute BelNIIS (Belarus)

Secretary of Editorial Board
Natallia Mamysh, Institute BelNIIS (Belarus)

INFORMATION POLICY AND EDITORIAL ETHICS

In the course of its work the editorial board and working group follow traditional ethical principles of research periodical publications, accepted by the international research community.

The editorial board has worked out the code of ethical rules. The editorial board demands all the participants of the publishing process: authors, reviewers, members of editorial board, editors and representatives of publishing companies to follow the rules. It does everything it can to prevent any kind of the rules breaking.

PEER REVIEW PROCESS

The “blind” review is an obligatory part of the publication process.

Authors may recommend the relevant independent reviewers for their papers. They also may demand to exclude certain specialists or organizations and/or their departments from the list of potential reviewers of their papers.

The condition for the paper to be accepted for further publication is the revision of the paper by the author in accordance with the reviewer's remarks or reasonable explanation of ignoring the remarks.

AUTHORS GUIDELINES

Only the research papers prepared by authors on their own and not been previously published are accepted to enter the submission process. The papers are to have research content and outstand with originality of the presented research results. The papers are also to be formatted according to the paper requirements and submitted within the required time limits.

The paper is to be formatted in Russian or English languages with the total length of the text – 10-15 pages (A4 format).

The detailed instructions how to format the papers, submitted to the Collected Research Papers, are presented in the website section **For Authors:** <https://belniis.by/collected-research-papers/for-authors/>.

Authors interested in publication within **the Edition 12 of the Articles** should send **full papers** to the Editorial Board **not later than July 01, 2020**.
